Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 12-21, and 23, drawn to apparatus, classified in class 248, subclass 694.
- II. Claims 1-11, and 22, drawn to methods, classified in class 248, subclass 130.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, and II are related as apparatus and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (2) the process for using the apparatus as claimed can be practiced with another materially different apparatus or (1) the apparatus as claimed can be used in a materially different process of using that apparatus (MPEP § 806.05(h)). In the instant case, the apparatus could be used as a pipe or a shaft holder.

A telephone call was made for Timothy Thomas on July 10, 2006 to request an oral election to the above restriction requirement, but did not result in an election being made. The applicant has requested to submit a written restriction requirement.

Conclusion
